Product Description

YHY Flight Simulator With Big Screens Logitech X52 Flight Stick Flying Simulator 360 Chair Flight

Our Product Introduction

Products Description

YHY Ultimate Flight

YHY **Ultimate Flight** is designed in a series with **VR Crossing**, **VR Ultimate Racing**, **VR Ultimate Gun Battle**. They are designed with Elegant looking and the materials in **the world's first all-aluminum alloy**, 32 inch screen live showing the games video and best for ads when not playing, and high standard software configuration, to bring players a great Virtual Reality experience.

32-INCH SCREEN

Monitor stand with 3 of 32" narrow bezel screen and control buttons, wide game vision, let you more immersed in it.

LOGITECH X52

Professional flight joystick. Simulate aircraft operation to make the game more realistic

All aluminum alloy material

The world's first all-aluminum dynamic platform chair, newly technology, not the iron metal materials, small size with light weight, easy for transportation and less shipping cost.

Professional racing bucket seat

The professional racing bucket seat gives you immersive and comfortable experience, and effective lateral support for flying.

New 3DOF dynamic platform

Newly developed 3DOF dynamic platform offers multi-angle movement, providing players with an excellent experience.

Tiny and exquisite equipment

A small footprint and the ability to be used at home and shopping mall, it is suitable for various scenarios.

Advantages Worth Choosing

1. The **world's first all-aluminum alloy** used to produce a dynamic platform with a cool appearance, tiny and exquisite equipment, a small footprint, and the ability to be **used at home**.
2. The world's **first three-axis dynamic platform** independently developed by Yihuan Yuan, which mimics flying in all directions, **360 rotation, front and back movement, left and right movement**, replacing the traditional three-axis flight dynamic platform with a better dynamic experience.
3. **Three 32-inch displays** are completely covered, providing a broader viewing angle and a quieter experience.
4. Suitable for a wide range of large-scale 3A flight games.
5. The integrated technology enables seamless integration of flying games with dynamic seats, resulting in refined dynamic attitude feedback.
6. The **Logitech X52 flight joystick** is used to enhance the realism and playability of the operation.
