## Product Description

32 Inch Screen 3 Dof Motion 4D Car Gaming Racing VR Racing Simulator for Inflatable

YHY All-aluminum Alloy Steering wheel 32 inch Screen 3 Dof Motion 4D Car Gaming Racing VR Racing Simulator

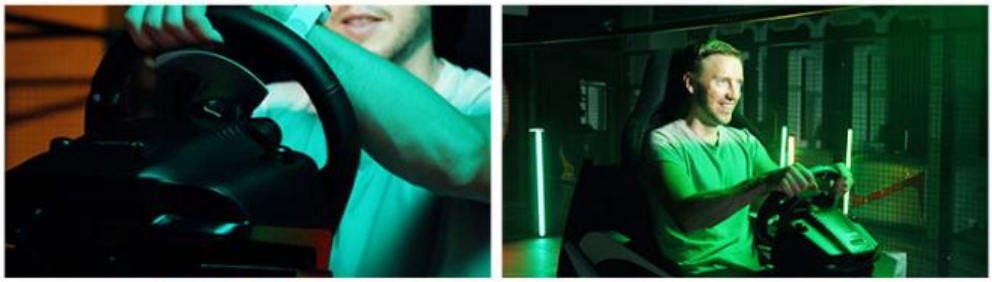
## What's New of Ultimate Series

**YHY Ultimate Racing**

YHY **Ultimate Racing** is designed in a series with **VR Crossing, VR Ultimate Flight, VR Ultimate Gun Battle**. They are designed with Elegant looking and the materials in **the world's first all-aluminum alloy**, 32 inch screen live showing the games video and best for ads when not playing, and high standard software configuration, to bring players a great Virtual Reality experience.

## 3-Screen Version Description

## Product Display



**All aluminum alloy material**

The world's first all-aluminum dynamic platform chair, newly technology, not the iron metal materials, small size with light weight, easy for transportation and less shipping cost.

**Professional racing bucket seat**

The professional racing bucket seat gives you immersive and comfortable racing experience, and effective lateral support for driving.

**New 3DOF dynamic platform**

Newly developed 3DOF dynamic platform offers multi-angle movement, providing players with an excellent experience.

**Tiny and exquisite equipment**

A small footprint and the ability to be used at home and shopping mall, It is suitable for various scenarios.

**Six Advantages Worth Choosing**

1. The **world's first all-aluminum alloy** used to produce a dynamic platform with a cool appearance, tiny and exquisite equipment, a small footprint, and the ability to be **used at home**. 2. The world's **first three-axis dynamic platform** independently developed by Yihuanyuan, which mimics flying in all directions, **360 rotation, front and back movement, left and right movement**, replacing the traditional three-axis flight dynamic platform with a better dynamic experience. 3. **Three 32-inch monitors** are completely covered, providing a broader viewing perspective and simultaneously enabling VR helmets for a more immersive experience. 4. Adapted to a wide range of **large-scale 3A racing games**, online competition, and multi-player interaction. 5. The integrated system enables the seamless integration of racing games with dynamic chairs, resulting in better dynamic posture feedback and a more enjoyable VR-version experience. 6. It has superior force feedback and a stronger sense of reality when using **the Logitech G29 steering wheel.**

## G29

Professional Racing Force Feedback Wheel and Pedal bring you real force feedback effect, same as the real racing cars.

## ADJUSTABLE PEDALS

Adjustable telescopic pedal with Auto button, can adjust the length accordingly, suitable for all players.

## 3*32-INCH SCREEN

Monitor stand with three 32" narrow bezel screen and control buttons, easy for operation, synchronously display game content on VR glasses.

## 3 SCREEN VERSION

TO PLAY WITHOUT VR HEADSET

This is the non-VR version of the device, which features three 32-inch displays for a wider gaming field of view. It can avoid the dizziness problem caused by VR glasses and is suitable for most players.

# VR VERSION

## TO PLAY WITH WIRELESS VR HEADSET

We also offer a VR version of the device. This version has a 32-inch display, equipped with PICO Neo 3 wireless VR glasses, and has 4 large-scale VR racing games built-in. It can provide players with a more realistic racing experience.
