Six Advantages Worth Choosing

1. The **world's first all-aluminum alloy** used to produce a dynamic platform with a cool appearance, tiny and exquisite equipment, a small footprint, and the ability to be **used at home**. 2. The world's **first three-axis dynamic platform** independently developed by Yihuanyuan, which mimics flying in all directions, **360 rotation, front and back movement, left and right movement**, replacing the traditional three-axis flight dynamic platform with a better dynamic experience. 3. **Three 32-inch displays** are completely covered, providing a broader viewing angle and a quieter experience. 4. Suitable for a wide range of large-scale 3A flight games. 5. The integrated technology enables seamless integration of flying games with dynamic seats, resulting in refined dynamic attitude feedback. 6. The **Logitech X52 flight joystick** is used to enhance the realism and playability of the operation.
