## Product Description

Pico Neo 3 Wireless Driving School Car by YHY First All-aluminum Alloy Steering Wheel

[YHY First All-aluminum Alloy Steering wheel Driving Car for School Pedals Bracket Dynamic driving simulator driving school](#)

## VR Version Description

### YHY Ultimate Racing

YHY [Ultimate Racing](#) is designed in a series with [VR Crossing](#), [VR Ultimate Flight](#), [VR Ultimate Gun Battle](#). They are designed with Elegant looking and the materials in [the world's first all-aluminum alloy](#), 32 inch screen live showing the games video and best for ads when not playing, and high standard software configuration, to bring players a great Virtual Reality experience.

#### All aluminum alloy material

The world's first all-aluminum dynamic platform chair, newly technology, not the iron metal materials, small size with light weight, easy for transportation and less shipping cost.

#### Professional racing bucket seat

The professional racing bucket seat gives you immersive and comfortable racing experience, and effective lateral support for driving.

#### New 3DOF dynamic platform

Newly developed 3DOF dynamic platform offers multi-angle movement, providing players with an excellent experience.

#### Tiny and exquisite equipment

A small footprint and the ability to be used at home and shopping mall, It is suitable for various scenarios.

## VR GLASSES

With PICO Neo 3 Wireless VR Glasses, offer you a more realistic racing experience.

## NEW 3DOF MOVEMENT PLATFORM

1. 360° movement rotational platform,

#### Six Advantages Worth Choosing

1. The **world's first all-aluminum alloy** used to produce a dynamic platform with a cool appearance, tiny and exquisite equipment, a small footprint, and the ability to be **used at home**.
2. The world's **first three-axis dynamic platform** independently developed by Yihuanyuan, which mimics flying in all directions, **360 rotation, front and back movement, left and right movement**, replacing the traditional three-axis flight dynamic platform with a better dynamic experience.
3. A **32-inch display** can attract passenger flow and achieve better drainage.
4. Match **pico new 3 VR integrated machine**, use the **latest streaming program**, experience better VR game content, have higher clarity and smoothness, make the effect more real.
5. The integrated system enables the seamless integration of racing games with dynamic chairs, resulting in better dynamic posture feedback and a more enjoyable VR-version experience.
6. It has superior force feedback and a stronger sense of reality when using **the Logitech G29 steering wheel**.

## ADJUSTABLE PEDALS

Adjustable telescopic pedal with Auto button, can adjust the length accordingly, suitable for all players.

## 32-INCH SCREEN

Monitor stand with 32" narrow bezel screen and control buttons, easy for operation, synchronously display game content on VR glasses.

## VR VERSION TO PLAY WITH WIRELESS VR HEADSET

This is the VR version of the device, which features one 32-inch display, equipped with PICO Neo 3 wireless VR glasses, and has 4 large-scale VR racing games built-in. It can provide players with a more realistic racing

experience.

## 3 SCREEN VERSION TO PLAY WITHOUT VR HEADSET

We also offer a non-VR version of the device. This version has three 32-inch displays for a wider gaming field of view. It can avoid the dizziness problem caused by VR glasses and is suitable for most players.
