Product Description

Self Service Flight Simulator With 3-Screen Border View

Production Introduction:

1. The integrated technology enables seamless integration of flying games with dynamic seats, resulting in refined dynamic attitude feedback.
2. Suitable for a wide range of large-scale 3A flight games.
3. The PXN-2119 flight joystick is used to enhance the realism and play ability of the operation.
4. The world's first all-aluminum alloy used to produce a dynamic platform with a cool appearance, tiny and exquisite equipment, a small footprint, and the ability to be used at home.
5. Three 32-inch displays are completely covered, providing a broader viewing angle and a quieter experience.
6. The world's first three-axis dynamic platform independently developed by Yihuanyuan, which mimics flying in all directions, replacing the traditional three-axis flight dynamic platform with a better dynamic experience.
