## Product Description

### 9D Virtual Reality Flying Simulator With Adjustable Game Time

#### Production Introduction:

1. Three 32-inch displays are completely covered, providing a broader viewing angle and a quieter experience.
2. The world's first three-axis dynamic platform independently developed by Yihuanyuan, which mimics flying in all directions, replacing the traditional three-axis flight dynamic platform with a better dynamic experience.
3. The world's first all-aluminum alloy used to produce a dynamic platform with a cool appearance, tiny and exquisite equipment, a small footprint, and the ability to be used at home.
4. The integrated technology enables seamless integration of flying games with dynamic seats, resulting in refined dynamic attitude feedback.
5. Suitable for a wide range of large-scale 3A flight games.
6. The PXN-2119 flight joystick is used to enhance the realism and play ability of the operation.
